

PROFESSIONAL SUMMARY

Cloud & Infrastructure Engineer with **9+ years** of experience across enterprise IT operations, cloud infrastructure, and managed services delivery. Proven track record in **24x7 operational environments** — monitoring, incident triage, and runbook-driven response — with hands-on expertise in **Azure IaaS, Citrix XenApp/XenDesktop, PowerShell/Python scripting**, and ITSM tooling (ServiceNow). Currently operating **Softcorp Group LLC** delivering cloud and infrastructure solutions to clients across Nepal, India, and the USA. Formerly at **Tata Consultancy Services (TCS)**, managing 3,500+ servers and 5,000+ users in a mission-critical enterprise environment. Known for driving **98.5%+ patch compliance**, reducing P1/P2 MTTR by **35%**, and automating 10+ hours of manual work weekly.

CORE SKILLS & TECHNICAL EXPERTISE

Cloud (Azure)	Azure IaaS (VM, VNet, NSG, Storage), Azure Monitor, Log Analytics (KQL), Azure AD, Conditional Access, MFA, ARM Templates
Citrix / VDI	XenApp/XenDesktop 7.x (CVAD), StoreFront, Profile Management, VDA lifecycle, session management, Citrix Director
Scripting & Automation	PowerShell, Python, Bash — log parsing, alert triage, runbook authoring, bulk automation
Monitoring	SolarWinds (NPM/SAM/NTA), Azure Monitor, PerfMon, Windows Event Forwarding
ITSM & Alerting	ServiceNow (Incident, Change, Problem), JIRA; PagerDuty-style alert workflows
Endpoint & Patch	SCCM, WSUS, Microsoft Intune (MDM/MAM)
Virtualization	VMware vSphere (ESXi/vCenter), Hyper-V
OS & Networking	Windows Server 2022/2019/2016/2012 R2, Linux (RHEL/CentOS), DNS, DHCP, TCP/IP
Security	CIS Benchmarks, Microsoft Defender for Endpoint, Zero Trust, Vulnerability Management
Identity	Active Directory (AD DS), GPO, ADFS, Azure AD Connect (hybrid sync)

PROFESSIONAL EXPERIENCE

Softcorp Group LLC

Jan 2023 – Present

Founder & Independent IT Consultant

Remote / USA-registered LLC

Cloud Operations & Azure Infrastructure

- Architected and deployed Azure IaaS environments — VMs, VNets, NSGs, Storage Accounts via ARM templates and Azure PowerShell — reducing manual provisioning time by **60%**.
- Configured **Azure Monitor** and **Log Analytics** workspaces with custom **KQL queries** for performance and security dashboards; centralized alerting across client subscriptions — directly analogous to NOC eyes-on-glass monitoring.
- Authored **Azure Automation Runbooks** (PowerShell) for scheduled VM start/stop — reducing client compute costs by ~30% monthly; demonstrates proactive, runbook-driven operational discipline.
- Managed Azure AD tenants: user/group lifecycle, Conditional Access, MFA enforcement, and Azure AD Connect sync troubleshooting for hybrid environments.

Citrix & VDI Administration

- Delivered **Citrix XenApp/XenDesktop** administration and performance tuning — improving session reliability and reducing logon times in virtual desktop environments.
- Performed VDA lifecycle management and profile management optimization, aligning with Citrix DaaS/CVAD operational best practices.

Scripting, Automation & Runbook Discipline

- Built PowerShell frameworks integrating Azure AD and on-prem AD — automating user provisioning, license assignment, group membership, and notifications.
- Developed Python scripts to parse Windows Event Logs and SolarWinds API data, auto-generating HTML compliance reports on schedule.
- Created reusable Bash/PowerShell scripts for **CIS Benchmark hardening checks** across Windows Server 2019/2022 — outputting pass/fail scorecards per control.

Key Technologies: Azure IaaS, Azure Monitor, Log Analytics (KQL), Azure AD, ARM Templates, PowerShell, Python, Bash, Citrix XenApp/XenDesktop, M365, SCCM, VMware, Oracle Cloud Infrastructure

Monitoring, Incident Response & SLA Management

- Operated in a **NOC-style, 24x7 enterprise environment** supporting 3,500+ servers and workstations; followed strict runbook/SOP-driven incident response procedures.
- Configured **SolarWinds** dashboards and custom threshold alerts for proactive infrastructure monitoring — reduced **P1/P2 MTTR by 35%**.
- Authored and maintained **30+ SOPs and technical runbooks**, directly improving L1/L2 first-call resolution rates.
- Maintained **100% ITIL compliance** in ServiceNow for change, incident, and problem management — shift-handover documentation upheld rigorously.

Azure & Cloud Operations

- Led migration of **1,500+ user mailboxes** from on-premises Exchange to Microsoft 365; configured Azure AD Connect and enforced MFA — reducing password-reset requests by 40%.
- Implemented and managed **Conditional Access policies** in Azure AD to protect corporate data from unmanaged device access.
- Managed 200+ VMs on VMware ESXi and Hyper-V — improved resource utilization by 25% through consolidation and rightsizing.

Citrix Environment Stabilization

- Stabilized a **Citrix XenApp farm supporting 500+ concurrent users**, achieving a **35% reduction in session disconnects and logon times** through policy tuning and profile management optimization.
- Performed VDA health checks, session management, and proactive fault identification using **Citrix Director** dashboards.

Scripting & Automation

- Developed a **PowerShell automation suite** covering user provisioning/de-provisioning (AD + Azure AD), server health checks, disk/CPU alerting, and weekly compliance reporting — saving **10+ hours of manual effort per week**.
- Built Python scripts for log parsing, patch status aggregation from WSUS/SCCM, and auto-distribution of management reports — reducing reporting cycle from 2 days to under **30 minutes**.

Patch Management & Compliance

- Orchestrated monthly Windows patching cycles using SCCM/WSUS for 3,500+ endpoints — achieved **98.5% patch compliance** and reduced critical vulnerabilities by 80% within 48 hours of patch release.
- Administered multi-domain Active Directory for 5,000+ users; GPO optimization reduced login-related helpdesk tickets by 30%.

Key Technologies: Windows Server 2016/2019, AD, GPO, DNS, DHCP, SCCM, WSUS, M365, Azure AD, VMware vSphere 6.7/7.0, Hyper-V, Citrix XenApp/XenDesktop, SolarWinds, PowerShell, Python, ServiceNow

EDUCATION

Master of Science in Computer Science

Dec 2021 – Dec 2023

Banaras Hindu University, Varanasi, India

Bachelor of Computer Applications

Dec 2011 – Dec 2014

University of Lucknow, Lucknow, India
